WILLIAM DOOLING

978-810-1603 | Baltimore, MD | me@williamdooling.com

EXPERIENCE

Risk Enablement Specialist | DraftKings | Remote *June 2025 – Present*

- Led automation of a 110K-case/year self-exclusion queue (Alfred) in ServiceNow to 90% automated, cutting manual case volume 75% (~29K cases/year) and saving ~1.8 FTE (~$110K) annually; partnered with Engineering to deliver the final automation
- Led discovery and the business case for automating self-exclusion handling: identified compliance gaps, reviewed the underlying codebase, and mapped every state's regulatory requirements into a requirements matrix and product spec with short- and long-term solutions; secured approval from senior leadership across Responsible Gaming, Regulatory Operations, Compliance, and Legal over six months of alignment
- Built a full inventory of Risk Operations' compliance-related work, plus a resolver ticket dashboard and automations; serve as Risk's primary representative and stakeholder for regulatory and compliance operations across teams, contributing to several audits, state and product launches, and ad-hoc regulator requests
- One of six Risk Specialists owning workstreams on the Risk Case Reduction Strategy, a top 2026 org priority targeting a 20% reduction in case volume; coordinated four workstreams across Risk Payments Operations, Product, Engineering, and Platform
- Partnered with Product, Engineering, and Platform to launch AI agents for deposit and withdrawal inquiries, the highest-volume Risk Payments Operations categories, reducing payments inquiry case volume ~30% year over year and freeing an estimated 2.4 FTE (~$145K) of annual associate capacity; contributed product specs, QA of agent-handled cases, detailed feedback, and SME coordination
- Independently initiated, designed, built, and rolled out Yggdrasil, an org chart and directory (Google Apps Script) that replaced a manual spreadsheet; reporting lines refresh via a scheduled AI-assisted job, with tester-requested features such as one-click copy of names and emails for direct reports or any filtered group

Senior Risk Withdrawals Associate | DraftKings | Remote *Aug. 2023 – June 2025*

- Consistently the highest-performing member of the Withdrawals team; promoted to Risk Enablement Specialist, Risk's project management team, after a competitive internal internship

Risk Analyst | Digital Gaming Corp. (Betway) | Arlington, VA *Jan. 2022 – Aug. 2023*

- Built an automated process using Excel and Python that increased Venmo withdrawal processing speed by 40%
- Performed thousands of fraud and AML reviews on customer accounts and withdrawals; represented hundreds of payment disputes and chargebacks

Early Career - Congressional & Legislative Internships *2019 – 2020*

- Office of Congresswoman Lori Trahan; Office of MA State Rep. Jerald A. Parisella - constituent casework and legislative research

INDEPENDENT PROJECTS *WilliamDooling.com*

BevFantasy.com - Designer & Developer *Serves 30+ members across five fantasy leagues*

- Solely designed, built, and maintain a fantasy football site for the leagues I run, with a Supabase (Postgres) database fed by automated nightly syncs from Sleeper's API, keeping five seasons and 500+ matchups of league history current

Into the Storm - Director, Designer, and Developer *studiogibbles.com*

- Solo-developed indie game, currently in alpha; ran structured blind playtests that drove 200+ iterations on the core loop and UI
- Designed and implemented a custom game analytics SQL integration to collect anonymized datapoints from player activity; used to provide statistical justification behind game balance, economy, and design features

EDUCATION

University of Massachusetts Lowell | B.A., Political Science, Law & Politics *May 2021*

- Graduated magna cum laude, Dean's List (5 semesters)
